Testimonials

- This was indeed one of the most valuable sessions. As Always Thanks to Dr. Khan for bringing high quality teaching to all of us. Thanks to Dr. Khalil for his case collection and patient teaching. I must say, I learned from the candidates too. They were good. so overall it was a not-to-be-missed session. Please keep bringing more for us. (Pakistan).
- Fantastic case collection of Barium. Previously I was afraid of it now Barium made easier now. Esophagus to rectum most of the bowel pathology were covered (India).
- Excellent cases. Great explanations, very knowledgeable presenter. Talks through the cases well if candidates get uncertain. Stresses importance of how to manage conditions and “next steps” (UK).
- Typical cases and difficult/rare cases of barium/contrast studies were very useful . As well as important X-Ray interpretations (Singapore).
- I loved the range of cases and particularly liked the defaecation proctogram (Ghana).
- Variety of cases with great lecture and I have seen lots of cases which I didn't see in my routine practice (Ethiopia).
- Excellent choice of cases and detailed description of these by candidates and Dr. Khalil. Best session ever (Pakistan).
- Well organized, excellent library of diverse & rare cases, especially in interpreting the quite volatile abdominal radiographs & Barium studies. Thank you sir (India).
- A session on Barium studies was long needed. For me it is one of my weaknesses regarding radiology. Dr. Khalil did a great job with both cases and teaching. Showed us basic and important cases (Pakistan).
- Barium is one of my weak areas. Wide variety of cases helped a lot (UK).

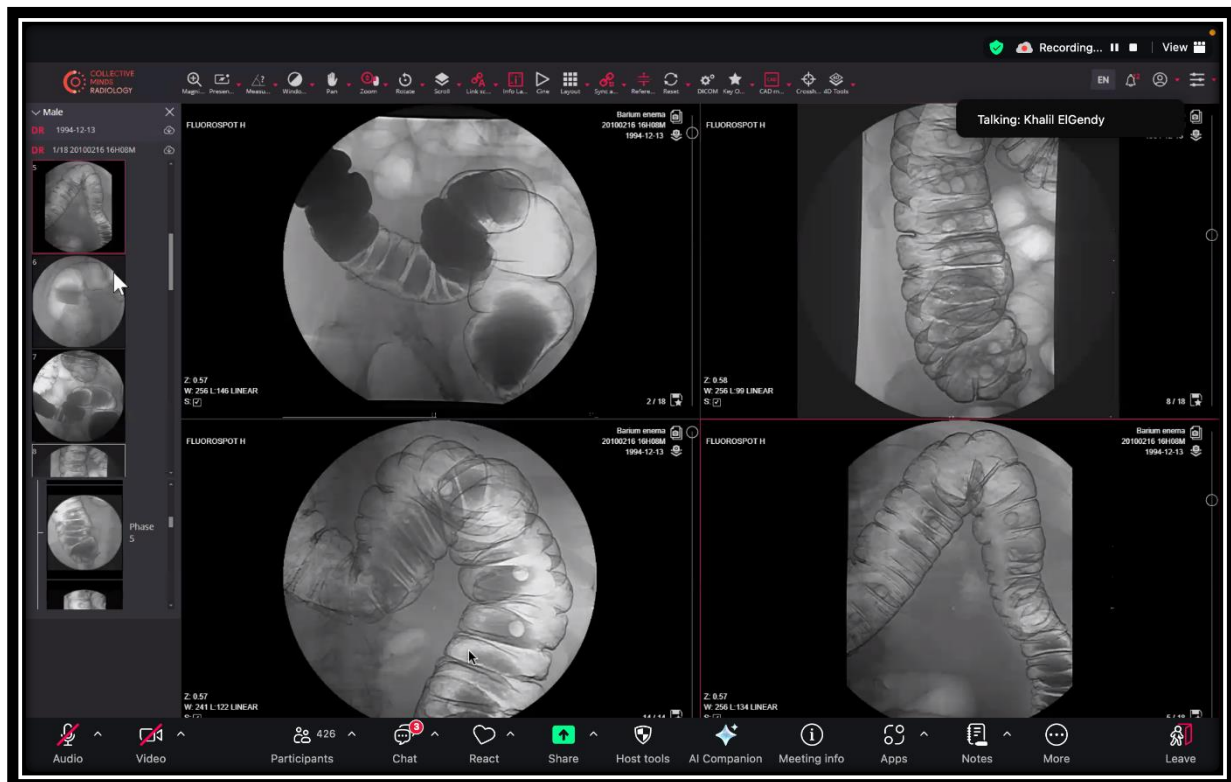

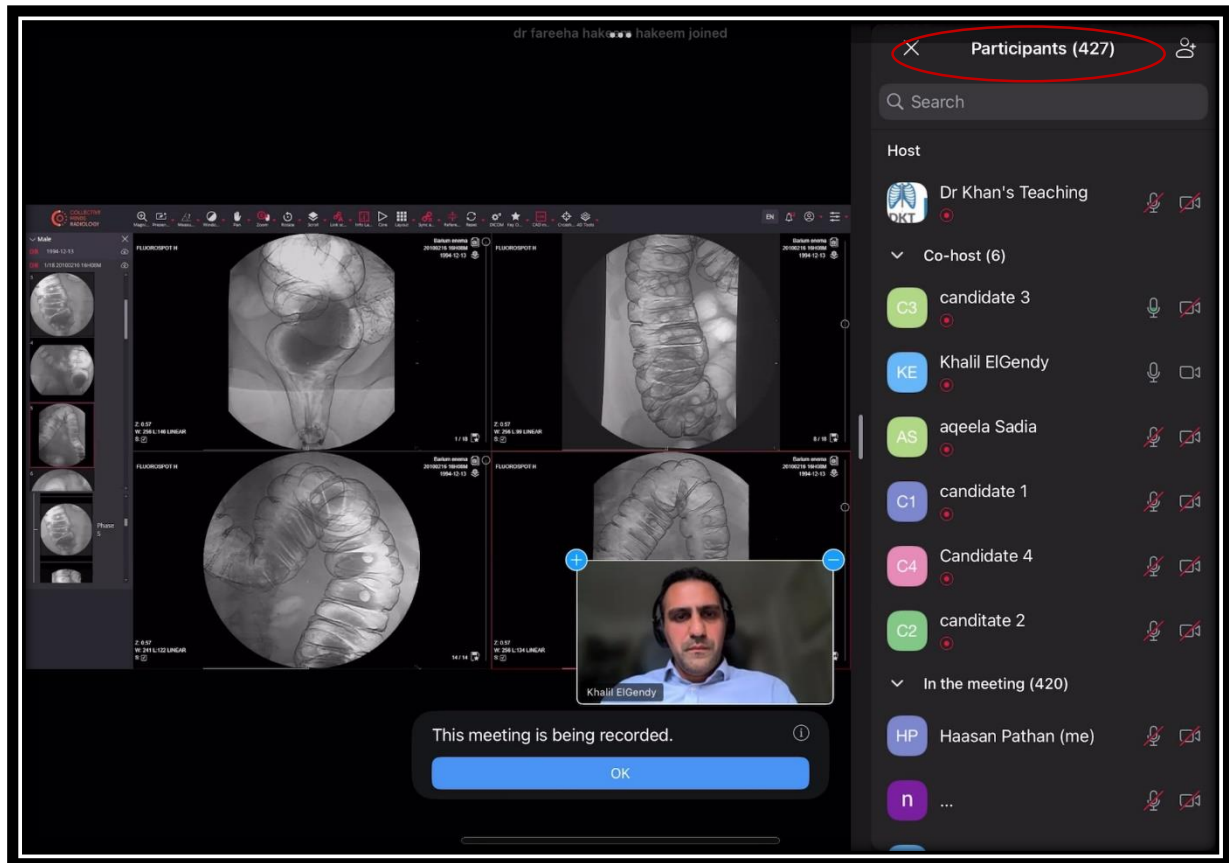

FRCR 2B Practice Viva (Session 102) - DKT Masterclass - Gut Instincts (Absorbing Cases): Abdominal XR and Fluoroscopy (Part A)

- The sessions are very educative and interesting. My sincere thanks to the presenters, they are very good (Nigeria).
- Excellent presenter, great cases. Well done (UK).
- Excellent lecture (UK).
- Exam approach to presenting cases was amazing, rare presentations (UK).
- Awesome forum for learning radiology across the globe (Pakistan).
- Excellent and extremely helpful (Bahrain).
- Excellent! satisfied at the end of the lecture (India).
- Barium study, silaography and acute abdomen X-Ray all was very interesting (UAE).
- Good work. Keep it up (Pakistan).
- Dr. Khan & team DKT, you have a great place in our hearts. Thank you so much (Egypt).
