Testimonials

- Excellent cases—another absolutely fantastic session with an amazing variety of cases and even different modalities (i.e., cranial US and Nuclear Medicine - DAT scan, Lumbar spine myelogram in addition to the conventional CT and MRI). This was gold!. Dr Sakib Moghul is a very engaging and phenomenal teacher and took it to another level today. I can't rate him highly enough. That was one of the best sessions of the year. Once again, I'm very thankful to Dr. Moghul and the DKT team for such a high-quality session. The insights and learning points gained from this are extremely beneficial not just for the exams and not just for day-to-day practice, but also in inspiring and instilling confidence in us to become future teachers for future generations to come! Now, that is awesome, and believe me, I actually mean that. Much love to you all (UK).
- Thank you, Dr. Sakib, again! Your concise teaching style ensures that not a moment is wasted, yet every essential idea is powerfully communicated! (Malaysia).
- Excellent cases and explanation. Excellent teacher. Waiting for more lectures from you. Thank you very much (UK).
- Very useful and great cases. Dr. Moghul was really good and gave really good practical advice for the exam and real-life practice (UK).
- The management part was most useful; it really wakes you up to be stronger after giving the differential part. This session was realized to be appearing for a clinical radiology exam (Pakistan).
- Great systematic analysis and succinct delivery of the major management points for each case was useful (Kenya).
- The management aspect has been long needed. Wise selection of cases for teaching purposes. Dr. Sakib is always encouraging candidates. He never makes harsh comments. He is kind and polite (Pakistan).

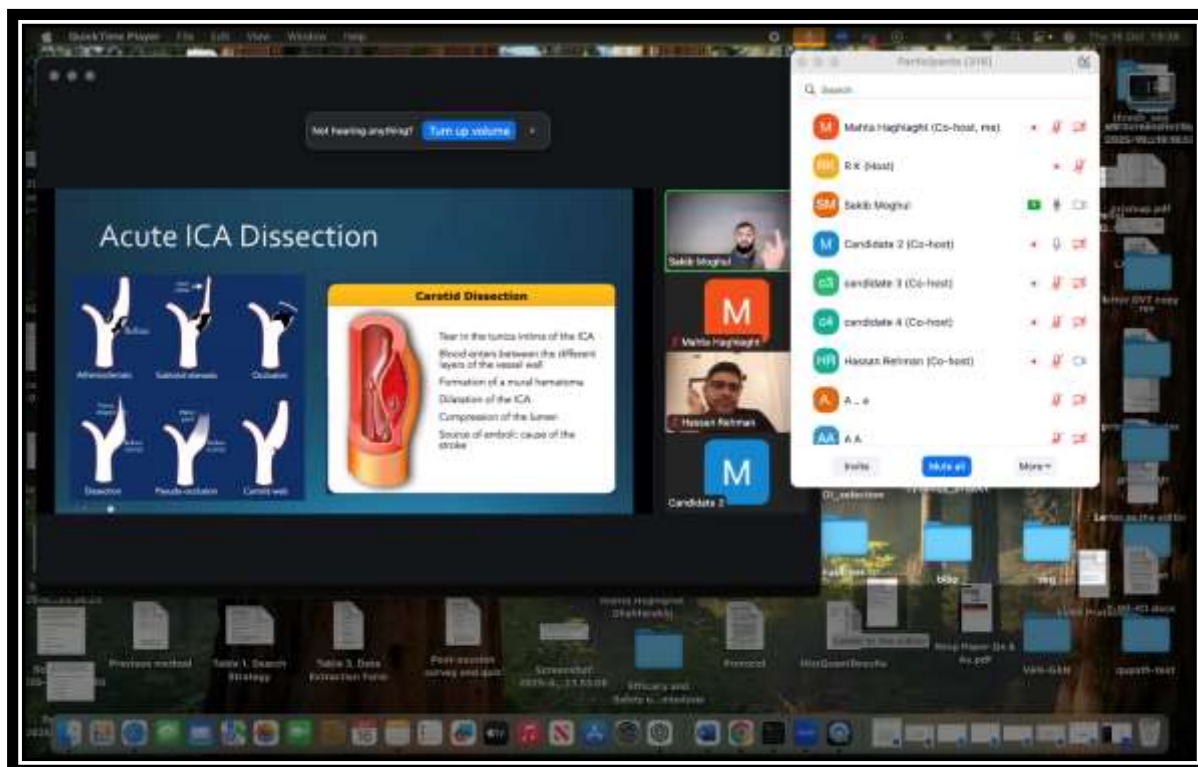

- Every aspect of the lecture was useful. The cases, the explanations, and the reporting format (Nigeria).
- Each and every word was so important and meaningful. The best thing was management (Pakistan).
- The tips of management and tips of reporting & concluding the findings and cases we are not very familiar with, like myelography & nuclear cases, were useful (Egypt).
- All were useful, especially the discussion after each case, which was so informative (Yemen).
- Excellent way of teaching. Actual cases followed by their management slides were useful. I learned a lot from your slides (UK).
- The case management was golden (Zimbabwe).
- Brilliant idea of teaching management in a systematic manner (Egypt).
- Management III of head and neck cases by Dr. Sakib Moghul was useful (UK).
- Amazing session. This style seems better for understanding management (UAE).
- Excellent teaching on the management part of cases (Pakistan).
- Managing the management sessions is pure gold! This is the area where most candidates are unsure what to do. Big thank you to Dr. Sakib Moghul and Dr. Khan (Pakistan).
- The discussion about management was useful (Saudi Arabia).
- The discussion and the management of cases was useful (India).
- Great stuff, great teaching, and excellent students (South Africa).
- Great session for a difficult specialty in radiology (Kenya).
- Very engaging presentation style. Management of cases we see every day was most useful (UK).
- Fantastic session, beautifully done (Libya).
- All were useful, especially the management (UK).
- The way of explanation was useful (Iraq).
- Management and what next were most useful (Pakistan).
- Very nice cases (UAE).
- Explanation and guidance were useful (UK).
- Image interpretation in a clinical context was useful (Zimbabwe).
- All parts were valuable (UK).
- In-depth discussion was useful (UAE).
- Management slides and discussion were useful (UK).
- Very well explained cases (Pakistan).
- Very good cases and management (Türkiye).
- To-the-point discussion and management was useful (Pakistan).
- Very good teaching (UK).
- It was perfect (UAE).
- Discussion of management was useful (Sri Lanka).
- Cerebral aneurysms and neck masses were useful (Kenya).
- Head and neck cases with their discussion were useful (UK).
- Amazing session (Sudan).
- Extensive CNS case discussion was useful (UAE).
- The entire session was useful (Bahamas).
- Perfect lecture (UAE).
- Very helpful in the management part of the exam (Saudi Arabia).
- Feedback after the presenter was useful (Nigeria).
- Perfect guidance on how to arrange the answer was useful (UK).
