- Total duration: 3 hours (each session broadcasted thrice during the week)
- Total feedback received from 87 participants, from three different broadcasts

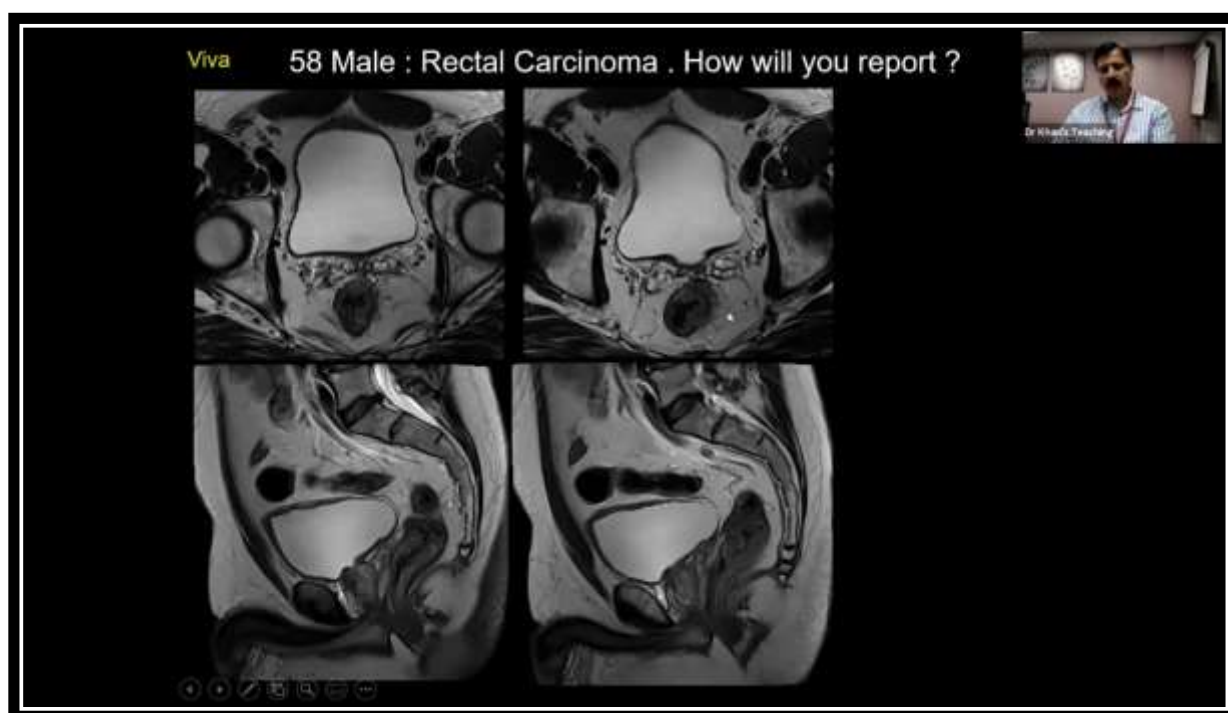

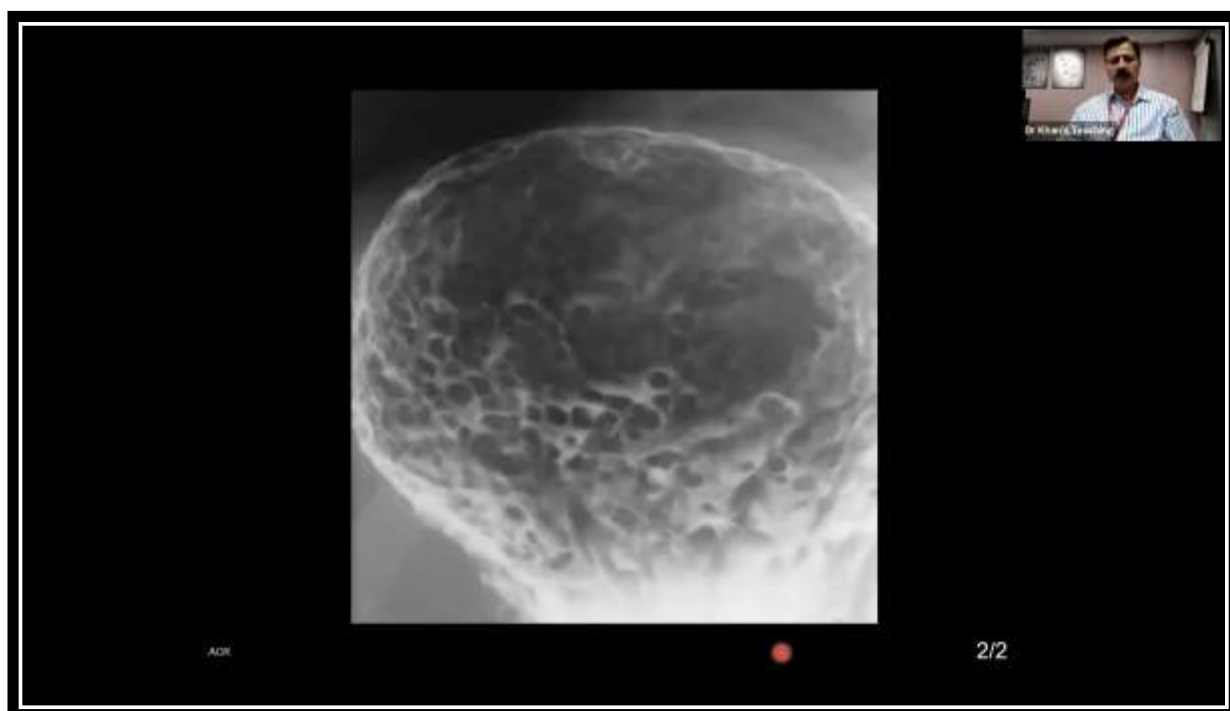

Testimonials

- I have always struggled with fluoroscopy studies, especially barium enema and follow-through, but Dr. Khan clarifies concepts so beautifully that it all starts making sense! These sessions are treasure trove of knowledge. I am truly indebted to Dr. Khan (Pakistan).
- The signs are highlighted clearly, and attention is given to why this matters in pathology. You consistently show how they link to typical presentations. You used well-known, well-illustrated signs that immediately help anchor the diagnosis (Algeria).
- Dr. Khan's tips and emphasis on key concepts expected to be mastered/remembered for the exam were useful (Malaysia).
- Great cases and teaching points, contrast studies—not much opportunity to see it in daily practice, hence very valuable (UK).
- The detailed explanation, pathology inclusion, and extensive case coverage were useful (Australia).
- Exam-based, clear, concise feedback and being Dr Khan lecture were the most useful aspects of the lecture (Egypt).
- Teaching done by Dr. Khan was most useful (Saudi Arabia).
- MRI films and discussion regarding rectal carcinoma were nicely explained. Thanks a lot (India).

- Barium cases with variable findings and clear illustration were useful (UK).
- It helped me in recalling barium studies and was very nicely taught (Saudi Arabia).
- The description of Dr. Khan from anatomy to physiology to pathology and then to radiology is amazing (Pakistan).
- Every aspect of the lecture was useful (Nigeria).
- It was perfect (UAE).
- Great cases (Iraq).
- The teaching part for each case from Dr. Khan was most useful (UK).
- The cases and teaching were useful (Saudi Arabia).
- Great learning. Thank you very much (Pakistan).
- All aspects were useful (UK).
- Continue the good work (Nigeria).
- Showing various types of images was useful (UK).
- I am in love with Dr. Khan's lectures! (Pakistan).
- Impressive (South Africa).
- Woow (Egypt).
- All the aspects of the lecture were useful (UK).
- The entire session was useful (Bahamas).
- The correlation with pathophysiology was useful (UK).
- The way of teaching was useful (Pakistan).
- Description with images was useful (UK).
- Covered almost all major pathologies related to GI (Pakistan).
- Excellent teaching session (Nigeria).
- Learned new signs and new things, like the accordion sign, which was useful (UK).
- All aspects are perfect (Saudi Arabia).
- 5-star (Türkiye).
- Great as usual (Iraq).
- Great teaching (Pakistan).
- Rectal carcinoma teaching cases with detailed explanations were useful (UK).
- Excellent way of teaching (Pakistan).
- Very helpful (UK).
- Very impressive (Nigeria).
- Outstanding session as always (Pakistan).
- Excellent cases and explanations were useful (UK).
- It was great (Pakistan).
- All of it was useful (Sudan).
- Every aspect of it was useful (Nigeria).
- 10/10! Thank you :) (UK).
