## Testimonials

- The lecture was both enjoyable and highly informative, covering a wide range of radiological cases from various body systems. Dr. Khan is an excellent teacher, particularly known for his engaging presentation style, which emphasizes the differential diagnosis of each case based on age and clinical correlations. I would also like to mention that Dr. Khan reinforces all the key concepts for the exam in every lecture. It's truly a remarkable effort. Thank you to Dr. Khan for dedicating his time to delivering these valuable lectures (Jordan).
- Excellent cases and learning points - very useful for me (Myanmar).
- All of the aspects of the session were useful, as every time Dr. Khan is teaching! (UK).
- The anatomy revision and the little bit of teaching to the candidates along with the feedback was very useful, many thanks for the time and effort (Egypt).
- Denervation of tongue muscle and fat embolism case were interesting cases. Anatomy discussion of larynx and oropharynx was really helpful (Pakistan).
