- Total duration: 3 hours (each session broadcasted thrice during the week)
- Total feedback received from 95 participants, from three different broadcasts

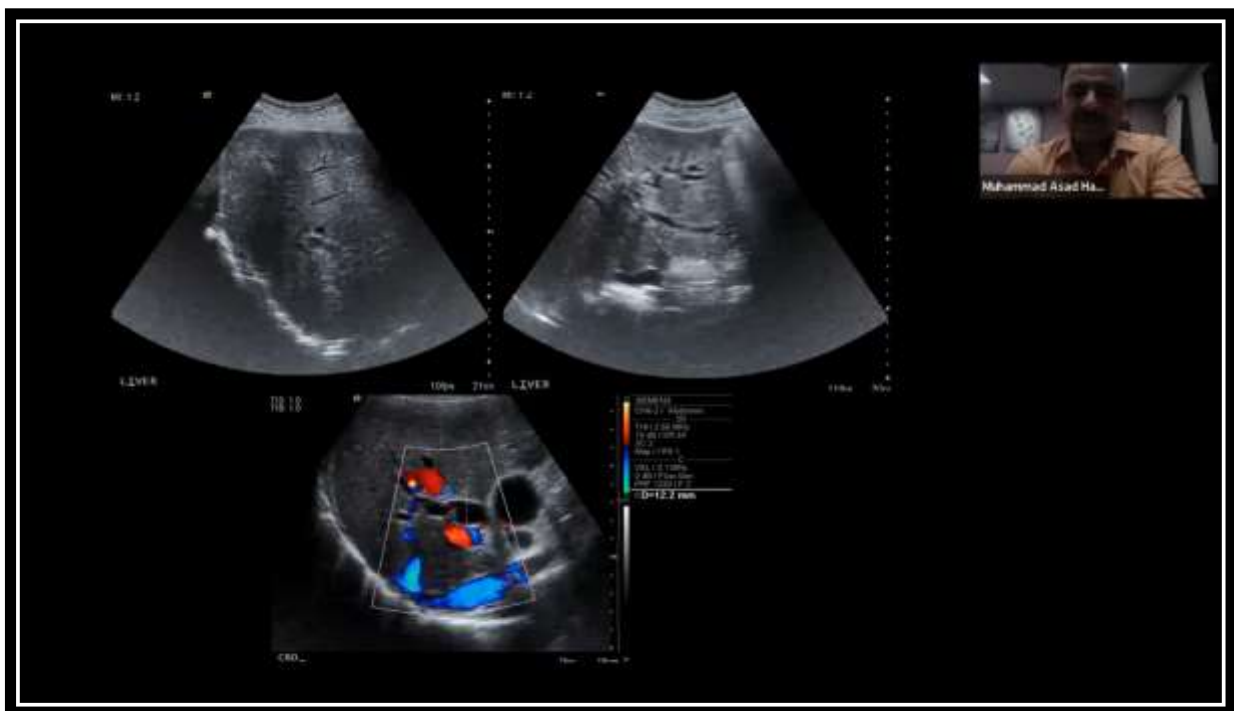

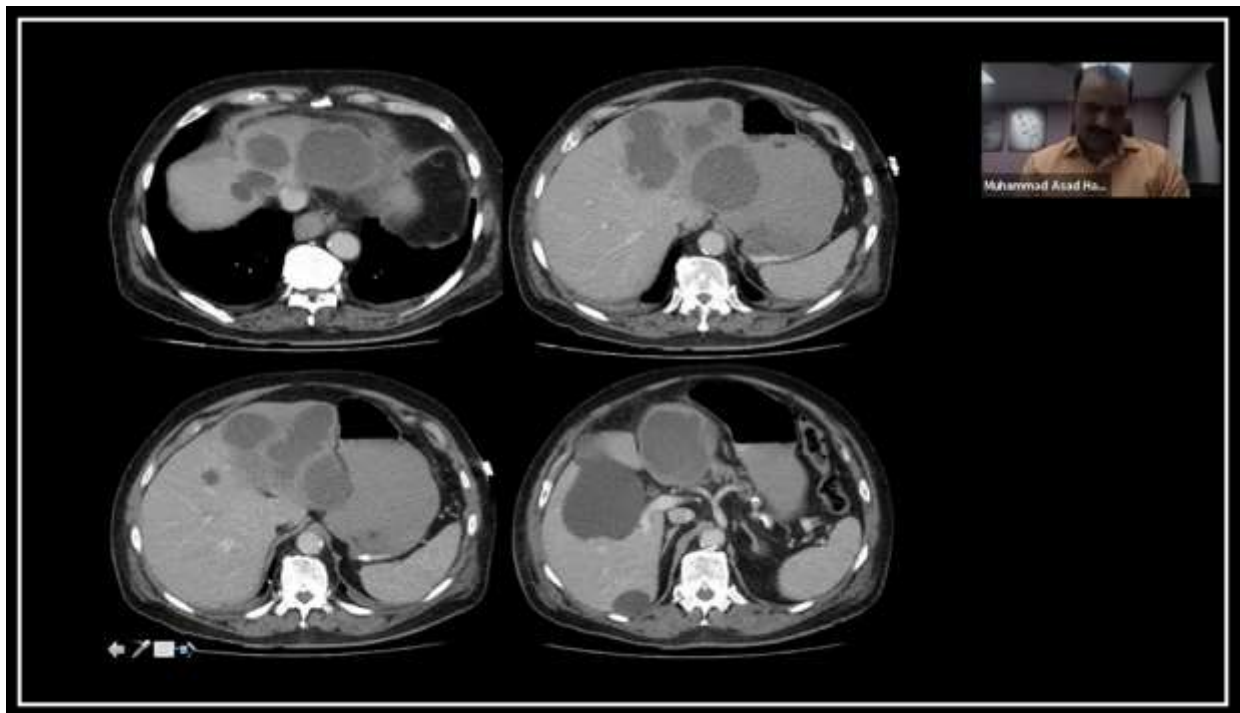

Testimonials

- The lecture was enjoyable and extremely important. Although interventional radiology is not part of the daily routine for general radiologists, the session covered many common cases we encounter in our professional practice. Dr. Mohammed provided an excellent explanation of how to manage these cases from an interventional radiology perspective. I believe this lecture established a solid foundation and a great starting point for any radiologist interested in interventional radiology. Thank you to Dr. Khan and his guest for this wonderful effort (Jordan).
- Really good session. The presenter was very good. Explained findings and management well in a way that those who don't have experience of IR could understand. I liked the use of images to demonstrate the pre and post treatment appearances and also the devices. Wide variety of cases (UK).
- Excellent tutor, excellent candidates, and excellent session! IR covered extensively (South Africa).
- Excellent session since I am not familiar with IR and these were great (Nigeria).

- Cases were really helpful, questions asked & answers given (Kuwait).
- Presentation skills, sound, knowledge, politeness and coverage of routine & common topics were top notch (Pakistan).
- The comprehensive review of the IR was very useful for exam preparation (Thailand).
- Everything taught was useful (Fiji).
- Excellent description and indications (Central African Republic).
- Very nice cases and teaching points. Well covered topic! (Saudi Arabia).
- Excellent explanations by the examiners (Pakistan).
- Thank you to presenter and team for this superb teaching (UK).
- Awesome platform for learning and improving radiology (Pakistan).
- Good presentation (Malaysia).
- Excellent content (Fiji).
- Excellent teaching session (Nigeria).
- Really interesting cases (Sudan).
- Good cases and explanations (UK).
- Valuable insight into Interventional Radiology. Especially the guidelines for safety (UK).
- Everything was excellent (Egypt).
- Nicely described cases (UK).
- Great learning. Thank you (Pakistan).
- Basic interventional management was well elaborated (UK).
- Useful techniques being discussed (Pakistan).
- Really useful range of cases. Well presented (UK).
- Very nice cases along with diversity in management of cases (Pakistan).
- Excellent teaching for complicated and less known concepts about IR (Pakistan).
- The management part involving the IR was great (Malaysia).
- All of it was helpful (Sudan).
- Excellent teaching session, useful image descriptions (Nigeria).
- Good summary of interventional radiology (Austria).
- All of it was helpful (Sudan).
- Excellent teaching (UK).
- Learnt a lot new ideas (Pakistan).
- Excellent teaching session (Nigeria).
- Very helpful and nice presentation. Thank you Dr. Khan for your efforts (Jordan).
- The tips by the senior consultant were amazing (Pakistan).
- Excellent explanation by the moderator (UK).
- Different IR techniques for various pathologies were well elaborated (Pakistan).
- Interventional techniques were well explained (UK).
- Great learning. Thank you (Pakistan).
- Detailed IR case description with guidelines (Pakistan).
- Excellent teaching points (Sudan).
- Excellent cases and explanations (UAE).
- Excellent variety of cases and procedures (India).
- Amazing variety of cases and explanation (UK).
- Excellent content and delivery (UK).
- The examiner's explanations were excellent (Kenya).
- Excellent teaching session (Nigeria).
- Every aspect of the lecture was useful (Nigeria).
