Testimonials

- These teachings are life changing for anyone practicing radiology, the amount of knowledge you gain is beyond imagination, Thanks you DKT! (Kenya).
- The lecture was enjoyable and extremely important. It featured many new cases but what truly set Dr. Khan apart is his engaging way of presenting these cases focusing on the differential diagnosis for each case within the relevant clinical context, patient age and gender. I believe this type of high-quality lectures are essential for any radiologist looking to advance their skills, as well as for exam preparation. We hope this excellent series continues and appreciate Dr. Khan ongoing efforts (Jordan).
- Every aspect of the session was useful - The cases, the explanation and the teaching style (Nigeria).
- Excellent session. I look forward to even more teaching sessions, with more of Dr. Khan's sessions (Kenya).
- Really enjoyed the session, variety of cases, very helpful teaching, along with feedback for every case, many thanks Dr Khan and DKT team (Egypt).
- Hot seat type case-based learning, very valuable! (South Africa).
- Very helpful and excellent lecture. Thank you Dr. Khan for your efforts (Jordan).
- Interesting cases. Appearance of Gossypiboma on MRI was well elaborated (Pakistan).
- Engagement with candidates and the wonderful teaching sessions were useful (Kenya).
- Always informative. Provides much needed clarity (South Africa).
- It was useful learning how to improve presenting cases during viva, seeing cases I haven't seen in daily practice like Caffey's (UK).
- Very useful session (Türkiye).
- Great teaching (Pakistan).
