Testimonials

- The lecture was extremely important, particularly regarding the pelvic pathologies Dr. Khan reviewed. He presented numerous interesting and challenging cases in an engaging manner, placing significant emphasis on differential diagnosis and anatomy. I would like to thank Dr. Khan for dedicating his time and effort to provide such valuable insights to radiologists worldwide (Jordan).
- The unusual presentations of common cancers with weird fistulas were very useful. Also I have not seen many cases of leptomeningeal carcinomatosis before elsewhere (UK).
- Very nice cases and very important teaching messages, enjoyed it so much, many thanks Dr. Khan and Team DKT for your time and efforts (Egypt).
