Testimonials

- As always, the lecture was incredibly enjoyable and important. It featured numerous new radiological cases and fresh insights - hallmarks of Dr. Khan's teaching style. There were many tricky cases, and what I particularly appreciated was the discussion on paranasal sinus pathologies and how to distinguish between tumours and infections. Overall, Dr. Khan's approach is unique and distinctive. Many thanks to Dr. Khan for this wonderful effort (Jordan).
- Really enjoyed the session, the case variety and teaching as well as feedback messages to candidates are so helpful, many thanks Dr. Khan and Team DKT (Egypt).
- The best online lectures for 2B (Pakistan).
- Very important topics discussed. Cleared our concepts (UAE).
- Helpful, exam focused but also good for day to day clinical practice (UK).
- I like the varieties of the cases in the POT POURRI sessions like this. Dr. Khan explains each case clearly (Thailand).
- Systemic sarcoidosis with CNS involvement was well elaborated (South Africa).
- The candidates trying to evaluate the images first and then teaching session starting with basic anatomy and going up towards differentials was an amazing concept (Pakistan).
- Every word taught was invaluable (Iraq).
- It's a blessing to have such a platform available free of cost (Pakistan).
- Very reminiscent of lost memory (Nigeria).
- I liked the detailed case description and exam-like scenario based cases (Pakistan).
- I saw pathology that was new to me - idiopathic Pneumatosis and neurosarcoidosis manifestations specifically (UK).
- Much satisfied with the lecture. Thank you Dr. Khan for these valuable lectures (Pakistan).
- All of it was useful (Sudan).
- Very good lecture (Türkiye).
