Testimonials

- As always, the lecture was incredibly enjoyable and informative. It was a continuation of the series on the Head and Neck; Dr. Khan focused on the anatomy of the neck and the orbit in a highly engaging and accessible manner, while emphasizing the differential diagnosis for each condition based on its anatomical location. There were many interesting cases that are valuable for both clinical practice and exam preparation. Dr. Khan's effort was truly outstanding. Many thanks and much appreciation for this excellent session (Jordan).
- Very unique way in anatomy teaching and super-selected cases with very important take home messages, really enjoyed the session, Many thanks Dr. Khan and Team DKT! (Egypt).
