Testimonials

- The lecture was incredibly enjoyable and important. It covered a variety of cases ranging in difficulty, but what I particularly appreciated was Dr. Khan's focus on simplifying the explanation of prostate MRI and his presentation of specific cases involving prostate tumors and infections. There were also cases that appeared straightforward but were actually deceptive. Overall, Dr. Khan stands out for his simplified explanations and engaging presentation style. I hope to see more high-quality lectures like this in the future. Many thanks to Dr. Khan for his wonderful effort (Jordan).
- Brilliant session as usual, very important take home messages, so valuable bit of teaching for every case which really adds a lot, many thanks to our great teacher and the team (Egypt).
