- Total feedback received from 86 participants, from three different broadcasts

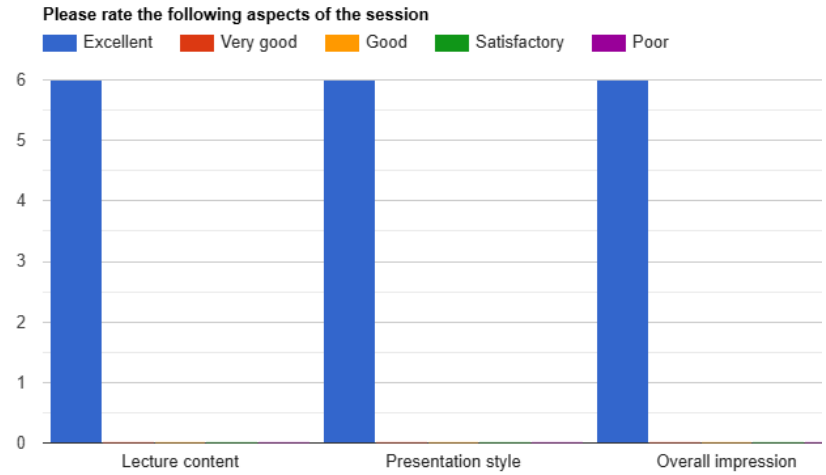

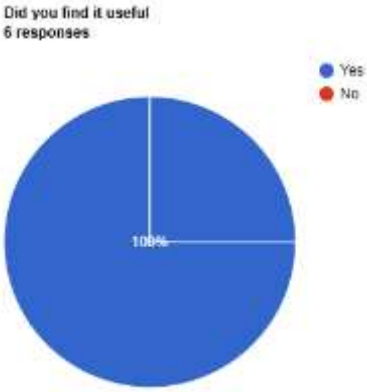

Pre-recorded: FRCR 2B Practice Viva (Session 81) - Special Guest Speaker Session (Learn from the Master himself)

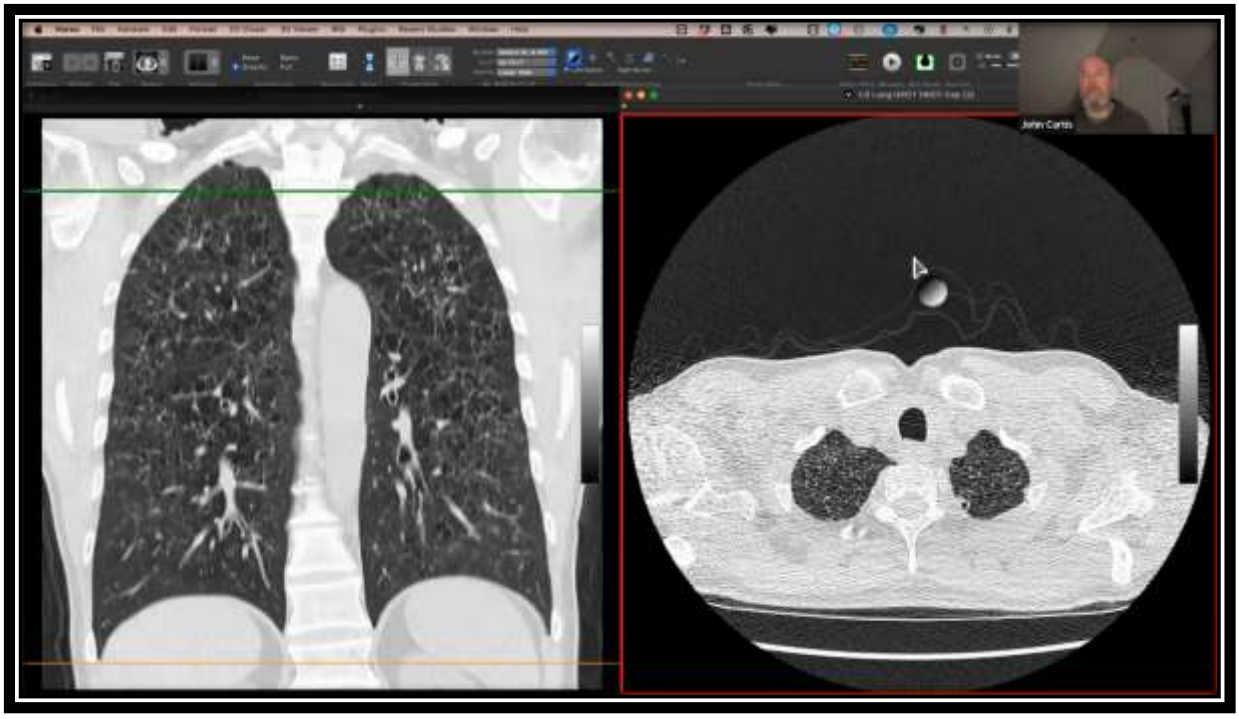

Testimonials

- Every aspect of the session was useful. The cases were brilliant. It is really learning from the master! (Nigeria).
- Amazing teaching by Dr. Curtis on a wide selection of cases. The best thing about Dr. Curtis is his patience and his kindness with candidates. His tone is encouraging. And he teaches in a very simple and beautiful way (Pakistan).
- I would like to thank Dr. Khan for hosting Dr. John Curtis, who possesses a wealth of experience and knowledge. The lecture was extremely important and beneficial, as it included numerous X-ray images—a component I believe is crucial, especially for the "short cases" part of the examination. The cases covered a diverse range of body systems, and the concepts—including potentially tricky scenarios that an examinee might encounter—were explained in a clear, accessible manner. Furthermore, there was a thorough discussion of differential diagnoses, with a focus on the ideal approach to presenting each case within its specific clinical context. Once again, I would like to express my gratitude to Dr. Khan and his guest, Dr. John Curtis, for this outstanding effort (Jordan).
- The most useful aspect of this lecture was John Curtis, nothing more to say about it (India).
- Brilliant session, many thanks to our great teacher and team DKT (Egypt).

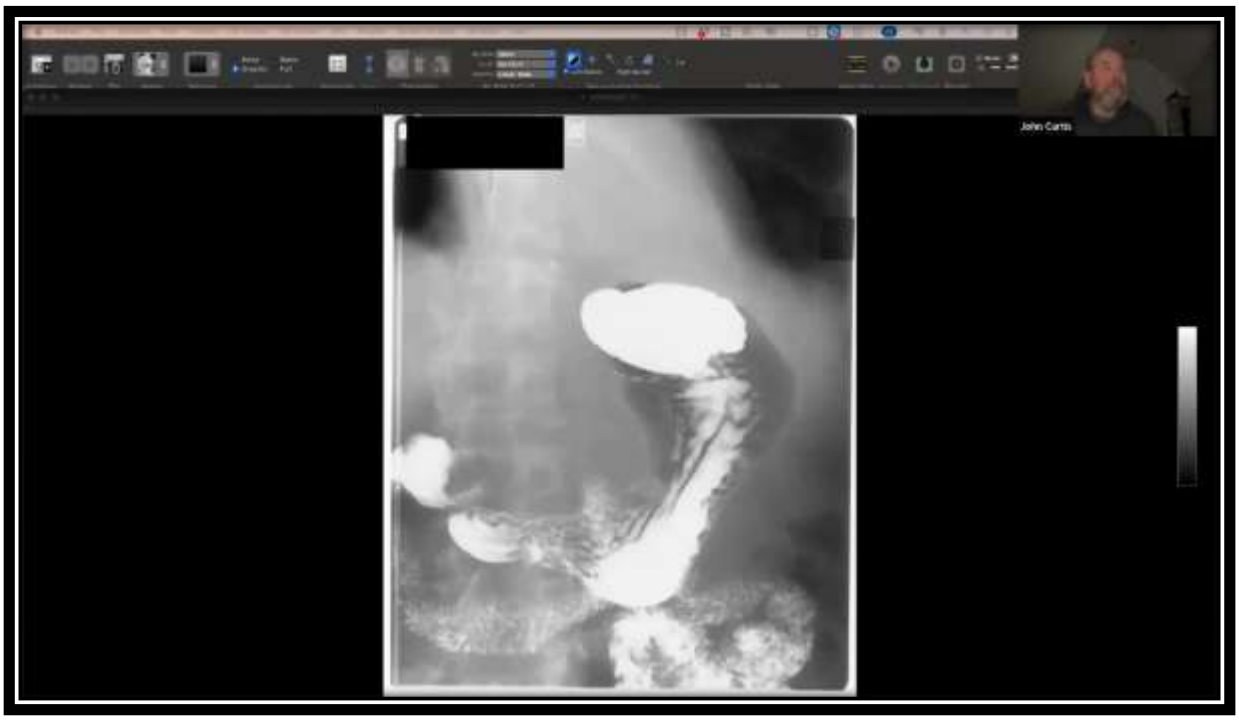

- Cases discussion and possible differentials; the review part was perfect (Nepal).
- Instructor interaction was most useful (Qatar).
- Wonderful cases (Saudi Arabia).
- Such a treat 🙏. Thank you (South Africa).
- Outstanding, want more such viva lectures by Sir John in future (Pakistan).
