- Total feedback received from 92 participants

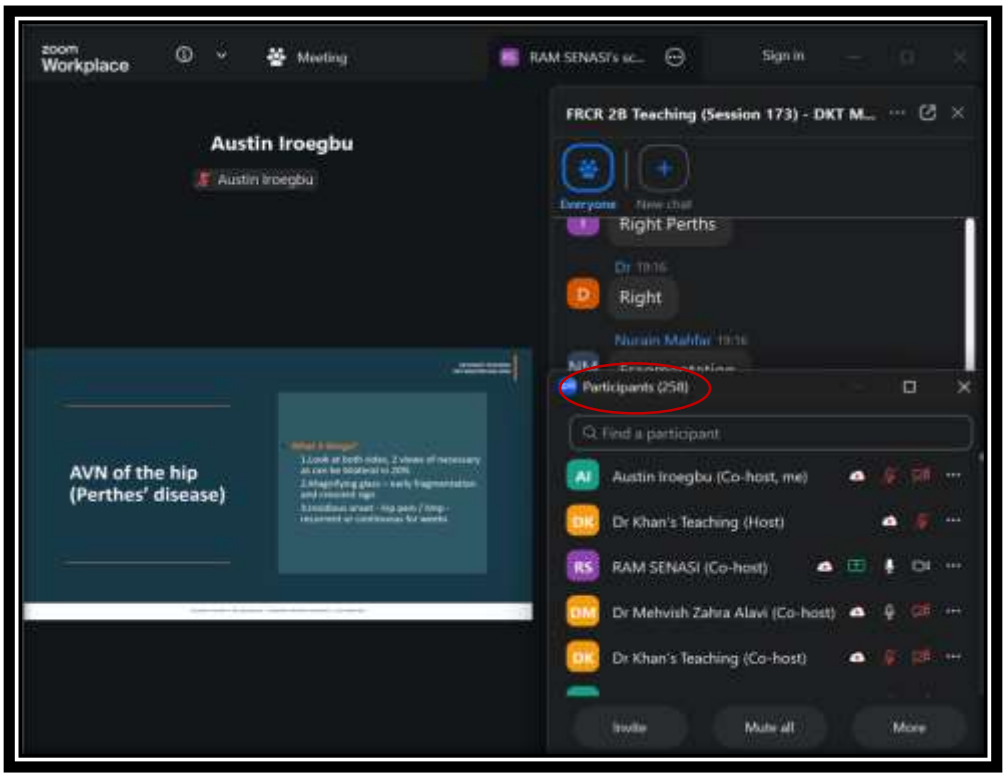

Testimonials

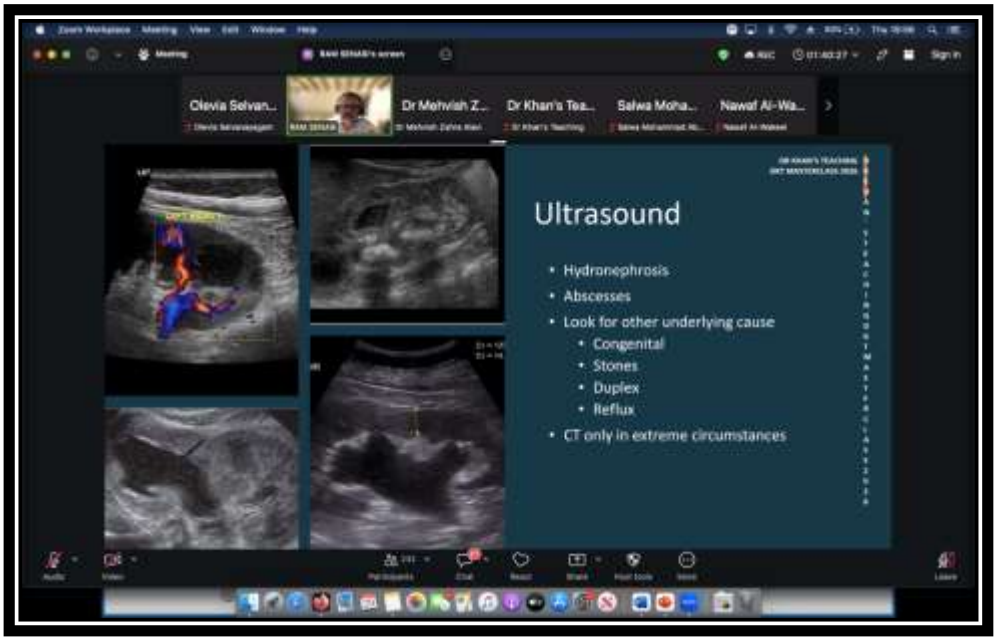

- The lecture was both highly enjoyable and informative. Dr. Rami provided a comprehensive overview of most pediatric emergency cases—a significant and often challenging topic for examinees. However, thanks to his excellent presentation—supported by high-quality images and a differential diagnosis for each case—the subject matter became much easier to grasp. Many thanks to Dr. Rami for this valuable discussion, and to Dr. Khan for hosting such an outstanding group of radiologists (Jordan).
- Excellent session - was good to have participation in the form of voice/viva style answering (UK).
- Brilliant session, precious take home messages, many thanks to our great teacher and team DKT (Egypt).
- Excellent session. What I learnt like go to basics, how to just not to look at pathology but how we have to be vigilant enough to save patients with emphasis and reinforcement on safety and consideration of overall. Patient in mind not the mere bookish pathology picture (UK).
- All of it was useful (Sudan).
- Brilliant session (Iraq).
- Great cases. Every aspect of the session was valuable (Nigeria).
- Case discussion was most useful (India).
- 10 out of 10 (Qatar).
